Agreement #	BF-ADD-2026-001
Effective date	_____

1. Purpose

This Payment and Scope Policy Addendum clarifies how Designer and Client will handle multiple active projects, separate invoices, overdue balances, source files, and trademark-related services.

This Addendum supplements the Master Design Services Agreement, Statements of Work, invoices, estimates, and written approvals between the parties.

2. Independent scopes and invoices

Each project, deliverable, invoice, and service scope is independent unless the parties expressly combine them in writing.

Payment for one completed scope may not be delayed, withheld, or conditioned on completion, approval, revision, or delivery of another scope.

A question or requested clarification about one agreement, invoice, or deliverable does not pause payment for another approved service or completed invoice.

3. Multiple active projects

If Designer is working on multiple projects for Client at the same time, each project will maintain its own scope, timeline, approval process, invoice, and payment obligation.

Client may not roll payment for a completed project into a different active project unless Designer agrees in writing.

Designer may require all overdue balances to be paid before starting or continuing any additional active work.

4. Overdue balances and work pauses

If any invoice becomes overdue, Designer may pause all active work, revisions, meetings, file delivery, website updates, trademark support, ownership transfer steps, source file delivery, and new project starts until the overdue balance is paid in full.

Pausing work due to overdue payment does not waive Designer right to collect payment for completed or approved work.

Late fees may be added as stated on the invoice, estimate, SOW, or written approval.

5. Trademarking is separate from design ownership

Trademarking, filing support, application coordination, and related administrative services are separate from logo design, source file delivery, and ownership/license agreement wording unless expressly combined in writing.

Trademark-related balances remain due according to their own invoice terms even if a separate design license agreement is being clarified or revised.

Designer is not a law firm and does not provide legal advice, legal opinions, trademark clearance, or registration guarantees.

6. Source file clarification

Final exported files are the finished usable files, such as PNG, JPEG, PDF, SVG, or print-ready files.

Editable/source files are the original working files, such as Adobe Illustrator, Photoshop, Figma, layered files, raw templates, or other files that allow future editing of the design structure.

Source files are not included unless expressly included in writing or purchased separately. Default logo source file package fee: \$100 unless stated otherwise.

7. Acknowledgment

By signing below, Client acknowledges that separate scopes and invoices remain separately payable, and that Designer may pause all work if any invoice becomes overdue.
